People keep on saying that delhi isn't safe...I was coming back from my office and my cab broke down (tyre puncture).

It was arnd 2 o'clock on OUTER RING ROAD after crossing burari not a well lit road...hardly any car, I could only see trucks.

First came a police bike asking why was I was standing there and told me to be safe and change the tyre as early as possible waited for atleast 2 mins till my driver was changing tyre.

After that came a police car(while petrolling) asking the same question, I told them there was a tyre puncture and it's almost done and we are leaving. He stood there till the time my car was fixed and told me trucks are moving so better take care and move from here..

I just want to thank #delhipolice and every #policeman for keeping the capital safe in such cold nights as well #respect
